## INDEPENDENT AUDITOR'S REPORT

**To the members of BF Biosciences Limited**

**Report on the Audit of the Financial Statements**

### Opinion

We have audited the annexed financial statements of **BF Biosciences Limited** ("the Company"), which comprise the statement of financial position as at 30 June 2021, and the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of the information and according to the explanations given to us, the statement of financial position, statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at 30 June 2021 and of the profit, the comprehensive income, the changes in equity and its cash flows for the year then ended.

### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017(XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

KPMGTH

## KPMG Taseer Hadi & Co.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

### *Auditor's Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

KPMGTH

KPMG Taseer Hadi & Co.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Other Legal and Regulatory Requirements**

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) no Zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditor's report is Ahsin Tariq.

**BF Biosciences Limited**  
**Notes to the Financial Statements**  
*For the year ended 30 June 2021*

**1 Reporting entity**

BF Biosciences Limited ("the Company") was incorporated on 24 February 2006 as an unlisted public limited company under the Companies Ordinance, 1984 (now Companies Act, 2017). The principal activity of the Company is import, manufacturing and sale of pharmaceutical products. The registered office of the Company is situated at 197-A, The Mall, Rawalpindi and the production facility is located at 5 KM- Sunder Raiwind Road Lahore.

The Company was incorporated pursuant to signing of an agreement between M/s Ferozsons Laboratories Limited, Pakistan ("the Parent Company") and M/s Grupo Empresarial Bagó S.A, Spain on 07 February 2006 in Islamabad for setting up a Biotech Pharmaceutical Plant to manufacture mainly Cancer and Hepatitis related medicines. The share holding of the Parent Company and M/s Grupo Empresarial Bagó S.A, Spain is 80% and 20% respectively.

The Company commenced its commercial operations on 01 July 2009.

**2 Basis of preparation**

**2.1 Statement of compliance**

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS, the provisions of and directives issued under the Companies Act, 2017 have been followed.

**2.2 Basis of measurement**

These financial statements have been prepared on the historical cost convention except for certain financial instruments that are stated at fair values. The methods used to measure fair values are discussed further in their respective policy notes.

In these financial statements, except for the amounts reflected in the cash flow statement, all transactions have been accounted for on accrual basis.

*KAMUJI*

### **2.3 Functional and presentation currency**

These financial statements are presented in Pakistani Rupee ("Rs.") which is the Company's functional currency. All financial information presented in Rupees has been rounded off to the nearest rupee, unless otherwise stated.

### **2.4 Use of estimates and judgments**

The preparation of financial statements in conformity with the approved accounting standards requires management to make judgments and estimates that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgment about carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on a continuous basis. Revisions to accounting estimates are recognized in the period in which estimates are revised if the revision affects only that period, or in the period of the revision and any future periods affected.

Judgments made by the management in the application of approved accounting standards that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the subsequent year are discussed in the ensuing paragraphs.

#### **2.4.1 Property, plant and equipment**

The management of the Company reassesses useful lives, depreciation method and rates for each item of property, plant and equipment annually by considering expected pattern of economic benefits that the Company expects to derive from that item and the maximum period up to which such benefits are expected to be available. Any change in estimates in future years might affect the carrying amounts of the respective items of property, plant and equipment with a corresponding effect on the depreciation charge and impairment. The rates of depreciation are specified in note 12.

#### **2.4.2 Impairment**

The management of the Company reviews carrying amounts of its assets and cash generating units for possible impairment and makes formal estimates of recoverable amount if there is any such indication.

#### **2.4.3 Stores, spare parts and loose tools**

The Company reviews the stores, spare parts and loose tools for possible impairment on an annual basis. Any change in estimates in future years might affect the carrying amounts of the respective items of stores and spare parts and loose tools with a corresponding effect on the provision.

1/10/2014

#### **2.4.4 Stock in trade**

Inventories are stated at lower of cost and net realizable value. Net realizable value signifies the estimated selling price in the ordinary course of business less costs necessarily to be incurred to make the sale.

The Company reviews the carrying amount of stock in trade on a regular basis and as appropriate, inventory is written down to its net realizable value

#### **2.4.5 Expected credit loss (ECL) / loss allowance against trade debts, deposits, advances and other receivables**

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive. The shortfall is then discounted at an approximation to the assets' original effective interest rate.

The Company has elected to measure loss allowances for trade debts other than due from 'Government of Pakistan' using IFRS 9 simplified approach and has calculated ECLs based on lifetime ECLs. The Company has established a provision matrix that is based on the Company's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment including forward-looking information.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Impairment on financial assets other than trade debts has been measured on 12 - months expected loss basis and reflects the short maturities of the exposure.

#### **2.4.6 Provisions**

Provisions are based on best estimate of the expenditure required to settle the present obligation at the reporting date, that is, the amount that the Company would rationally pay to settle the obligation at the reporting date or to transfer it to a third party.

#### **2.4.7 Fair value of investments**

The Company regularly reviews the fair value of investments, the estimate of fair values are directly linked to market value. Any change in estimate will effect the carrying value of investments with the corresponding impact on statement of profit or loss.

#### **2.4.8 Contingencies**

The Company reviews the status of all pending litigations and claims against the Company. Based on its judgment and the advice of the legal advisors for the estimated financial outcome, appropriate disclosure or provision is made. The actual outcome of these litigations and claims can have an effect on the carrying amounts of the liabilities recognized at the balance sheet date.

*Handwritten signature*

#### **2.4.9 Taxation**

The Company takes into account the current income tax laws and decisions taken by appellate authorities. Instances where the Company's view differs from the view taken by the income tax department at the assessment stage and the Company considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

### **3 Significant accounting policies**

The accounting policies set out below have been consistently applied to all to all periods presented in these financial statements.

#### **3.1 Deferred grant**

The Company recognizes the benefit of a government loan at a below-market rate of interest as a Government grant. The benefit of the below-market rate of interest is measured as the difference between the initial carrying value of the loan determined in accordance with IFRS 9 and the proceeds received and is presented as deferred grant. The recognition of government grants in profit or loss is on a systematic basis over the periods in which the expenses (in line with the recognition of interest expenses the grant is compensating) for which the grants are intended to compensate.

#### **3.2 Trade and other payables**

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in future for goods or services received.

Trade and other payables are obligations to pay for goods and services that have been acquired in the ordinary course of business from suppliers. Account payables are classified as current liabilities if amount is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

#### **3.3 Contract liabilities**

A contract liability is the obligation of the Company to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract. It also includes refund liabilities arising out of customers' right to claim amounts from the Company on account of contractual delays in delivery of performance obligations and incentive on target achievements.

#### **3.4 Property, plant and equipment**

##### **3.4.1 Operating assets**

Property, plant and equipment of the Company other than capital work in progress are stated at cost less accumulated depreciation and impairment loss, if any. Cost in relation to property, plant and equipment comprises acquisition and other directly attributable costs.

*Handwritten signature*

Depreciation is provided on a straight line basis and charged to the statement of profit or loss to write off the depreciable amount of each asset, over its estimated useful life at the rates specified in note 11 to these financial statements. Depreciation on depreciable assets is commenced from the date asset is available for use up to the date when asset is retired.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the statement of profit or loss as and when incurred.

Gain and loss on sale of an item of property, plant and equipment are determined by comparing the proceeds from sale with the carrying amount of property, plant and equipment, and are recognised net within "other income / other expenses" in the statement of profit or loss.

#### **3.4.2 Capital work in progress**

Capital work-in-progress is stated at cost less identified impairment loss, if any. It consists of all expenditures and advances connected with specific assets incurred and made during installations and construction period. These are transferred to relevant property, plant and equipment as and when assets are available for use.

#### **3.5 Stores, spare parts and loose tools**

Stores, spare parts and loose tools are valued at weighted average cost except for items in transits which are stated at cost incurred up to the reporting date less impairment, if any. For items which are slow moving and/or identified as surplus to the Company's requirements, adequate provision is made for any excess book value over estimated net realizable value. The Company reviews the carrying amount of stores, spares parts and loose tools on a regular basis and provision is made for obsolescence.

#### **3.6 Stock in trade**

Stocks are valued at the lower of weighted average cost and net realizable value. Cost is determined as follows:

Raw and Packing materials	- at moving average cost;
Work in process	- at moving average cost;
Finished goods	- at moving average cost; and
Finished goods for	- at moving average cost of purchase.

Cost of finished goods purchased for resale and raw and packing materials comprises of purchase price and other costs incurred in bringing the material to its present location and condition. Cost in relation to work in process and finished goods include direct production costs such as raw material, consumables, labour and appropriate portion of production overheads.

Net realizable value signifies the estimated selling price in the ordinary course of business less estimated cost of completion and estimated costs necessarily to be incurred in order to make a sale.

*MANUELA*

### **3.7 Trade debts**

These are classified at amortized cost and are initially recognised when they are originated and measured at fair value of consideration receivable. These assets are written off when there is no reasonable expectation of recovery.

### **3.8 Cash and cash equivalents**

Cash and cash equivalents are carried in statement of financial position at cost. For the purpose of cash flow statement cash and cash equivalents comprise of cash in hand, cash at banks, short term investments in Government securities and outstanding balance of short term borrowing facilities availed by the Company.

### **3.9 Revenue recognition**

Revenue represents the fair value of the consideration received or receivable for sale of products, net of sales tax, sales returns and related discounts and commission. Revenue is recognized when or as performance obligation is satisfied by transferring control of promised goods or services to a customer and control either transfers overtime or point in time.

### **3.10 Other income**

Other income comprises interest income on funds invested, dividend income, exchange gain and changes in the fair value of financial asset at fair value through profit or loss. Income on bank deposits is accrued on a time proportion basis by reference to the principal outstanding and the applicable rate of return. Foreign currency gains and losses are reported on a net basis.

Dividend income and entitlement of bonus shares are recognized when the right to receive is established.

Gains and losses on sale of investments are accounted for on disposal of investments.

### **3.11 Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying asset is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognized in the statement of profit or loss as incurred.

### **3.12 Dividend distribution**

Dividend distribution to the shareholders is recognized as a liability in the financial statements in the period in which it is approved.

### **3.13 Taxation**

Income tax expense comprises current and deferred tax. Income tax expense is recognized in the statement of profit or loss account, except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in other comprehensive income or equity as the case may be.

*1/11/2011*

### **3.13.1 Current taxation**

Provision of current tax is based on the taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year if enacted after taking into account tax credits, rebates and exemptions, if any. The charge for current tax also includes adjustments, where considered necessary, to provision for tax made in previous years arising from assessments framed during the year for such years.

The amount of unpaid income tax in respect of the current and prior periods is recognized as liability. Any excess amount paid over what is due in respect of the current or prior periods is recognized as an asset.

### **3.13.2 Deferred taxation**

Deferred tax is recognized using the statement of financial position liability method on all temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the amounts used for taxation purposes.

Deferred tax asset is recognized for all the deductible temporary differences only to the extent that it is probable that future taxable profits will be available against which the asset may be utilized. Deferred tax asset is reduced to the extent that it is no longer probable that the related tax benefit will be realized. Deferred tax liabilities are recognized for all the taxable temporary differences.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the tax rates that have been enacted or substantively enacted by the statement of financial position date.

Deferred tax is charged or credited in the statement of profit or loss account, except in the case of items credited or charged to comprehensive income or equity, in which case it is included in unconsolidated other comprehensive income or equity.

### **3.14 Employee benefits**

Salaries, wages and benefits are accrued in the period in which the associated services are rendered by employees of the Company and measured on an undiscounted basis. The accounting policy for employee retirement benefits is described below:

#### **3.14.1 Staff provident fund (Retirement benefit)**

The Company operates a defined contributory approved Provident Fund Trust for all its employees. Equal monthly contributions are made both by the Company and employees at the rate of 10% of the basic salary to the Provident Fund Trust. Obligation for contributions to defined contribution plan is expensed as the related service is provided.

#### **3.14.2 Compensated absences**

The Company provides for compensated absences for its employees on unavailed balance of leave in the period in which leave is earned and the charge is recognized in the statement of profit or loss.

*MANITH*

### **3.15 Financial instruments**

#### **3.15.1 Recognition and initial measurement**

All financial assets or financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A receivable without a significant financing component is initially measured at the transaction price.

#### **3.15.2 Classification and subsequent measurement**

##### **Financial assets**

On initial recognition, a financial asset is classified as measured at amortized cost, fair value through other comprehensive income (FVOCI), fair value through profit or loss (FVTPL) and in case of equity instrument it is classified as FVOCI or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

##### **Amortized cost**

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in statement of profit or loss. Any gain or loss on derecognition is recognized in the statement of profit or loss.

Financial assets measured at amortized cost comprise of cash and bank balances, deposits, trade debts and other receivables.

##### **Debt Instrument - FVOCI**

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

*KAMUIN*

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in statement of profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss. However, the Company has no such instrument at the reporting date.

**Equity Instrument - FVOCI**

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

These assets are subsequently measured at fair value. Dividends are recognized as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss. However, the Company has no such instrument at the reporting date.

**Fair value through profit or loss (FVTPL)**

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL.

On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in the statement of profit or loss. The Company classify its investments in mutual funds as at FVTPL.

**Financial assets – Business model assessment:**

For the purposes of the assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

*Handwritten signature*

### **Financial liabilities**

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in statement of profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in the statement of profit or loss. Any gain or loss on derecognition is also recognized in the statement of profit or loss.

Financial liabilities comprise trade and other payables, long term loan, short term borrowings and accrued mark-up.

Long term loans are classified as 'financial liabilities at amortized cost'. On initial recognition, these are measured at cost, being fair value at the date the liability is incurred, less attributable transaction costs. Subsequent to initial recognition, these are measured at amortized cost with any difference between cost and value at maturity recognized in the statement of profit or loss over the period of the borrowings on an effective interest basis.

Finance cost are accounted for on accrual basis and are reported under accrued markup to the extent of the amount remaining unpaid.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Financial liability which carry a share conversion option represents convertible loans that can be converted into ordinary shares or can be settled in cash, are treated as compound financial instrument. The liability component of a compound financial instrument is recognised initially at the fair value of a similar liability that does not have an equity conversion option. The equity component is recognized initially directly in equity and represents at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not re-measured subsequent to initial recognition except on conversion or expiry.

### **3.15.3 Derecognition**

#### **Financial assets**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company might enter into transactions whereby it transfers assets recognized in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

*KAMUTH*

### **Financial liabilities**

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in the statement of profit or loss.

#### **3.16 Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

#### **3.17 Impairment**

##### **Financial assets**

The Company recognizes loss allowances for ECLs on:

- financial assets measured at amortized cost;
- debt investments measured at FVOCI; and
- contract assets.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The financial assets due from Government of Pakistan continue to be measured under IAS-39 due to the exemption given by the Securities and Exchange Commission of Pakistan vide S.R.O. 985 (I)/2019 dated 02 September 2019. The financial assets due from Government of Pakistan are assessed at each balance sheet date to determine whether there is any objective evidence of impairment. A financial asset due from Government of Pakistan is impaired if there is objective evidence of impairment as a result of one or more events that have occurred after the initial recognition of the asset, and that loss event(s) had an impact on the estimated future cash flows of that asset the amount can be estimated reliably.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

*Handwritten signature*

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Loss allowances for trade receivables and contract assets are always measured at an amount equal to lifetime ECLs. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Loss allowances for financial assets measured at amortised cost are deducted from the Gross carrying amount of the assets.

The Gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering of a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

#### Non-financial assets

The carrying amount of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of an asset or cash generating unit is the greater of its value in use and its fair value less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present values using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash generating unit.

An impairment loss is recognized if the carrying amount of the assets or its cash generating unit exceeds its estimated recoverable amount. Impairment losses are recognized in the statement of profit or loss. Impairment losses recognized in respect of cash generating units are allocated to reduce the carrying amounts of the assets in a unit on a pro rata basis. Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to that extent that the asset's carrying amount after the reversal does not exceed the carrying amount that would have been determined, net of depreciation and amortization, if no impairment loss had been recognized.

### **3.18 Provisions**

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. However, provisions are reviewed at each reporting date and adjusted to reflect current best estimate.

MANUJITH

### **3.19 Foreign currency**

All monetary assets and liabilities in foreign currencies are translated into rupees at exchange rates prevailing at the reporting date. Transactions in foreign currencies are translated into rupees at exchange rates prevailing at the date of transaction. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated into rupees at exchange rates prevailing at the date of transaction. Non-monetary assets and liabilities denominated in foreign currency that are stated at fair value are translated into rupees at exchange rates prevailing at the date when fair values are determined. Exchange gains and losses are included in the statement of profit or loss.

## **4 Standards, amendments and interpretations and forthcoming requirements**

### **4.1 Standards, amendments or interpretations which became effective during the year**

There are new and amended standards and interpretations that are mandatory for accounting periods beginning on or after 1 July 2020 and are considered not to be relevant or do not have any significant effect on the Company's financial statements and are therefore not stated in these unconsolidated financial statements.

### **4.2 New and revised accounting standards, amendments to published accounting standards, and interpretations that are not yet effective**

The following International Financial Reporting Standards (IFRS Standards) as notified under the Companies Act, 2017 and the amendments and interpretations thereto will be effective for accounting periods beginning on or after 01 July 2021:

- Interest Rate Benchmark Reform – Phase 2 which amended IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 is applicable for annual financial periods beginning on or after 1 January 2021, with earlier application permitted. The amendments introduce a practical expedient to account for modifications of financial assets or financial liabilities if a change results directly from IBOR reform and occurs on an 'economically equivalent' basis. In these cases, changes will be accounted for by updating the effective interest rate. A similar practical expedient will apply under IFRS 16 for lessees when accounting for lease modifications required by IBOR reform. The amendments also allow a series of exemptions from the regular, strict rules around hedge accounting for hedging relationships directly affected by the interest rate benchmark reforms. The amendments apply retrospectively with earlier application permitted. Hedging relationships previously discontinued solely because of changes resulting from the reform will be reinstated if certain conditions are met.
  
- COVID-19-Related Rent Concessions (Amendment to IFRS 16) – the International Accounting Standards Board (the Board) has issued amendments to IFRS 16 (the amendments) to provide practical relief for lessees in accounting for rent concessions. The amendments are effective for periods beginning on or after 1 June 2020, with earlier application permitted. Under the standard's previous requirements, lessees assess whether rent concessions are lease modifications and, if so, apply the specific guidance on accounting for lease modifications. This generally involves remeasuring the lease liability using the revised lease payments and a revised discount rate. In light of the effects of the COVID-19 pandemic, and the fact that many lessees are applying the standard for the first time in their financial statements, the Board has provided an optional practical expedient for lessees. Under the practical expedient, lessees are not required to assess whether eligible rent concessions are lease modifications, and instead are permitted to account for them as if they were not lease modifications.

*KAMUJIM*

- Reference to the Conceptual Framework (Amendments to IFRS 3) - Reference to the Conceptual Framework, issued in May 2020, amended paragraphs 11, 14, 21, 22 and 23 of and added paragraphs 21A, 21B, 21C and 23A to IFRS 3 . An entity shall apply those amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 January 2022. Earlier application is permitted if at the same time or earlier an entity also applies all the amendments made by Amendments to References to the Conceptual Framework in IFRS Standards, issued in March 2018.
  
- Classification of liabilities as current or non-current (Amendments to IAS 1) amendments apply retrospectively for the annual periods beginning on or after 1 January 2023. These amendments in the standards have been added to further clarify when a liability is classified as current. The standard also amends the aspect of classification of liability as non-current by requiring the assessment of the entity's right at the end of the reporting period to defer the settlement of liability for at least twelve months after the reporting period. An entity shall apply those amendments retrospectively in accordance with IAS 8.
  
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) – the Board has issued amendments on the application of materiality to disclosure of accounting policies and to help companies provide useful accounting policy disclosures. The key amendments to IAS 1 include:
  - requiring companies to disclose their material accounting policies rather than their significant accounting policies;
  - clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and
  - clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.

The Board also amended IFRS Practice Statement 2 to include guidance and two additional examples on the application of materiality to accounting policy disclosures. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 with earlier application permitted.

- Definition of Accounting Estimates (Amendments to IAS 8) – The amendments introduce a new definition for accounting estimates clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty.

The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that a company develops an accounting estimate to achieve the objective set out by an accounting policy. The amendments are effective for periods beginning on or after 1 January 2023, and will apply prospectively to changes in accounting estimates and changes in accounting policies occurring on or after the beginning of the first annual reporting period in which the company applies the amendments.

KAMUTH

The practical expedient introduced in the 2020 amendments only applied to rent concessions for which any reduction in lease payments affected payments originally due on or before 30 June 2021. In light of persistence of economic challenges posed by the COVID-19 pandemic, the Board has extended the practical expedient for COVID-19 related rent concessions by one year i.e. permitting lessees to apply it to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022.

Rent concessions are eligible for the practical expedient if they occur as a direct consequence of the COVID-19 pandemic and if all the following criteria are met:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
  - any reduction in lease payments affects only payments originally due on or before 30 June 2022; and
  - there is NO substantive change to the other terms and conditions of the lease.
- Onerous Contracts – Cost of Fulfilling a Contract (Amendments to IAS 37) effective for the annual periods beginning on or after 1 January 2022 amends IAS 1 by mainly adding paragraphs which clarifies what comprises the cost of fulfilling a contract, Cost of fulfilling a contract is relevant when determining whether a contract is onerous. An entity is required to apply the amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments (the date of initial application). Restatement of comparative information is not required, instead the amendments require an entity to recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate, at the date of initial application.
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16) effective for annual periods beginning on or after 1 January 2022 clarifies that sales proceeds and costs of items produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management e.g. when testing etc., are recognized in profit or loss in accordance with applicable Standards. The entity measures the cost of those items applying the measurement requirements of IAS 2. The standard also removes the requirement of deducting the net sales proceeds from cost of testing. An entity shall apply those amendments retrospectively, but only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. The entity shall recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of that earliest period presented.

MANU

- **Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12)** – The amendments narrow the scope of the initial recognition exemption (IRE) so that it does not apply to transactions that give rise to equal and offsetting temporary differences. As a result, companies will need to recognise a deferred tax asset and a deferred tax liability for temporary differences arising on initial recognition of a lease and a decommissioning provision. For leases and decommissioning liabilities, the associated deferred tax asset and liabilities will need to be recognised from the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to retained earnings or other components of equity at that date. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 with earlier application permitted.
- **Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)** – The amendment amends accounting treatment on loss of control of business or assets. The amendments also introduce new accounting for less frequent transaction that involves neither cost nor full step-up of certain retained interests in assets that are not businesses. The effective date for these changes has been deferred indefinitely until the completion of a broader review.

Annual Improvements to IFRS Standards 2018–2020 Cycle - the improvements address amendments to following approved accounting standards:

- **IFRS 9** – The amendment clarifies that an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other’s behalf, when it applies the ‘10 per cent’ test in paragraph B3.3.6 of IFRS 9 in assessing whether to derecognize a financial liability.
- **IFRS 16** – The amendment partially amends Illustrative Example 13 accompanying IFRS 16 by excluding the illustration of reimbursement of leasehold improvements by the lessor. The objective of the amendment is to resolve any potential confusion that might arise in lease incentives.
- **IAS 41** – The amendment removes the requirement in paragraph 22 of IAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique

The above amendments are effective from annual period beginning on or after 01 January 2022 and are not likely to have an impact on Company’s financial statements.

6.1 TERF loan facilities obtained from MCB Bank Limited and Habib Bank Limited will be utilized by the Company for the purpose of installing a second production line in its existing facility which will be used to manufacture the biological and non-biological medicines. These loans are recognized at fair value using the market interest rate of 3 month KIBOR plus 1.50% and the difference between fair values and net disbursement amounts is recognized as deferred grant.

6.2 Term finance facility under "SBP refinance scheme for payment of wages and salaries" introduced by Government of Pakistan in order to prevent entities from laying-off employees during COVID-19 outbreak. The Subsidiary Company obtained Rs. 35 million for paying salaries for the months of May to September, 2020. The loan has been measured at its fair value in accordance with IFRS 9 (Financial Instruments) using market interest rates of 1 month KIBOR plus 1% and 3 month KIBOR plus 1.50%. The difference between fair value of loan and loan proceeds has been recognized as deferred grant as per requirements of IAS 20 (Accounting for Government grants and disclosure of Government assistance) and as per Circular 11/2020 issued by the Institute of Chartered Accountants of Pakistan.

6.3 Loan facility obtained from Karandaez Pakistan will be utilized by the company to expand its production capacity by installing a second line of production in its existing facility. Furthermore this includes conversion option (equivalent to 50% of the outstanding principal amount) subject to the fact that all the conditions decided between the parties have been met/ fulfilled/ satisfied or waived. The loan is recognized at fair value using the market interest rate of 3 month KIBOR plus 1.50% and the difference between fair value and disbursement amount is recognized as equity component.

6.4 These loans carry mark-up at the rates ranging from 1.93% to 3% (2020: 2%).

MANEJIN

## 10 Contract liabilities

This represents advance received from customers for future sale of goods. During the year, the Company has recognized revenue amounting to Rs. 6.06 million, out of the contract liability as at 01 July 2020.

## 11 Contingencies and commitments

### 11.1 Contingencies:

- 11.1.1** On 15 June 2020, the ACIR issued a show-cause notice to the Company u/s 122(9) of the Income Tax Ordinance, 2001 for the tax year 2014. The proceedings were concluded on 29 June 2020, and an order was issued amounting to Rs. 35,992,726 on various contentions which mainly includes promotional expenses, amortization and finance costs.

The Company had filed an appeal against this demand before Commissioner Appeals who deleted the existing demand and remanded back some matters to the learned officer for re-assessment. The Income Tax Department has filed an appeal against this order before the Appellate Tribunal Inland Revenue, which is currently pending. Management is confident that the eventual outcome of the matter will be decided in favor of the Company.

- 11.1.2** In February 2017, the ACIR issued a show-cause notice to the Company u/s 122(9) of the Income Tax Ordinance, 2001 for the tax year 2015. The proceedings were concluded on 06 October 2020, and an order was issued amounting to Rs. 77,075,217 on various contentions which mainly includes expenses apportionment, promotional expenses, amortization and excess depreciation.

The Company had filed an appeal against this demand before Commissioner Appeals which is currently pending. Management is confident that the eventual outcome of the matter will be decided in favor of the Company.

### 11.2 Commitments:

#### 11.2.1 Letter of credits

##### 11.2.1.1 *Under Mark up arrangements*

Out of aggregate facility of Rs. 2,640 million (2020: Rs.565 million) for letter of credits, amount utilized at 30 June 2021 was Rs. 1,419.10 million (2020: Rs. 247.7). Utilized facility includes commitment of capital nature of Rs. 1,384.55 million. These facilities are secured by joint pari passu charge and ranking charge (2020: joint pari passu charge) over all present and future current assets of the Company.

##### 11.2.1.2 *Under Shariah compliant arrangements*

The Company has facility i.e. letters of credit of Rs. 100 million (2020: Rs. NIL) available from Islamic banks. The amount utilized as at 30 June 2021 was Rs. 15.805 million (2020: Rs. NIL). Lien is also marked over import documents.

#### 11.2.1 Guarantees issued by banks on behalf of the Company

##### 11.2.1.1 *Under Mark up arrangements*

Out of the aggregate facility of Rs. 75 million (2020: Rs. 60 million) for letter of guarantees (which is the sublimit of running finance and letter of credits), the amount utilized as at 30 June 2021 was Rs. 8.74 million (2020: Rs. 8.3 million).

##### 11.2.1.2 *Under Shariah compliant arrangements*

The Company has facility i.e. letter of guarantee of Rs. 50 million (2020: Rs. NIL) available from Islamic banks, the amount utilized at 30 June 2021 was Rs. NIL million (2020: Rs. NIL).

<b>20 Short term borrowings - secured</b>	<i>Note</i>		
<i>Under interest / markup arrangements:</i>			
Short term running finance - secured	20.1	-	-

**20.1 Interest/ Mark up based financing under non sharia arrangements**

The Company has short term borrowing facilities available from various commercial banks under mark-up arrangements having aggregate sanctioned limit of Rs. 635 million (2020: Rs. 550 million). These facilities carry mark-up at the rates ranging from one months KIBOR plus One to Three months KIBOR plus 0.1% to 1% per annum (2020: one to three months KIBOR plus 0.1% to 1% ). Running finance facilities include interchange limits of non-funded facilities amounting to Rs. 225 million. The aggregate short term borrowings are secured by first pari passu charge of Rs. 421 million over current and future assets and lien on Company's investment in mutual funds placed with Asset Management Companies with margin of 5%. These facilities are renewable latest by 30 November 2021.

**21.1 Un-availed credit facilities**

The facilities for opening letters of credits and guarantees as at 30 June 2021 amount to Rs. 650 million (2020: Rs. 625 million), including interchange limits of funded facilities amounting to Rs. 425 million (2020: Rs. 340 million), of which the unutilized amount as of this date was Rs. 260.51 million (2020: Rs. 368.92 million).

21.2 As per the financing arrangements, the Company is required to comply with certain financial covenants and other conditions as imposed by the providers of finance.

KANUNTO

### 36 Financial risk management

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

#### Risk management framework

The Company's Board of Directors has overall responsibility for establishment and oversight of the Company's risk management framework. The Board is responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations. The Board of Directors reviews and agrees policies for managing each of these risks.

#### 36.1 Credit risk and concentration of credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. To manage credit risk the Company maintains procedures covering the application for credit approvals, granting and renewal of counterparty limits and monitoring of exposures against these limits. As part of these processes the financial viability of all counterparties is regularly monitored and assessed.

##### 36.1.1 Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk as at the end of the reporting period was as follows:

	2021 Rupees	2020 Rupees
<u>Financial assets at amortized cost</u>		
Long term deposits	4,827,000	4,547,000
Trade debts - considered good	202,489,864	49,203,542
Deposits and other receivables	21,171,126	20,461,547
Deposit - L/C margin	6,106,049	99,972,264
Loans and advances - considered good	9,682,680	1,904,773
Bank balances	418,051,422	25,996,027
<u>Financial assets at fair value through profit or loss</u>		
Short term investments	821,541,126	381,762,229
	<u>1,483,869,267</u>	<u>583,847,382</u>

##### 36.1.1.1 Concentration of credit risk

The Company identifies concentrations of credit risk by reference to type of counter party. Maximum exposure to credit risk by type of counterparty is as follows:

	2021 Rupees	2020 Rupees
Customers	202,489,864	49,203,542
Banking companies and financial institutions	1,239,592,548	407,758,256
Others	41,786,855	126,885,584
	<u>1,483,869,267</u>	<u>583,847,382</u>

Handwritten signature or mark in blue ink.

### 36.1.1.2 Credit quality and impairment

Credit quality of financial assets is assessed by reference to external credit ratings, where available, or to historical information about counterparty default rates. All counterparties, with the exception of customers and utility Companies, have external credit ratings determined by various credit rating agencies. Credit quality of customers is assessed by reference to historical defaults rates and present ages.

### 36.1.1.3 Counterparties with external credit ratings

These represents banking companies and financial institutions, which are counterparties to bank balances and investments. Credit risk is considered minimal as these counterparties have reasonably high credit ratings as determined by various credit rating agencies. Due to long standing business relationships with these counterparties and considering their strong financial standing, management does not expect non-performance by these counterparties on their obligations to the Company. Following are the credit ratings of counterparties with external credit ratings:

Institutions	Rating		Rating Agency	2021	2020
	Long term	Short term		Rupees	
Allied Bank Limited	AAA	A1+	PACRA	14,543,570	3,570,822

### 36.1.1.4 Counterparties without external credit ratings - Trade debts

These mainly include customers which are counter parties to local and foreign trade debts against sale of pharmaceutical products. As explained in note 3.17, the Company applies the IFRS 9 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade receivables other than due from Government departments / hospitals. Trade receivables are written off when there is no reasonable expectation of recovery.

Management uses an allowance matrix to base the calculation of ECL of trade receivables from individual customers, which comprise a very large number of small balances. Loss rates are calculated using a 'role rate' method based on the probability of receivable progressing through successive stages of delinquency to write-off. The Company has used tow years quarterly data in the calculation of historical loss rates along with the matching quarterly ageing brackets for the computation of roll rates. These rates are multiplied by scalar factors to reflect the effect of forward looking macro economic factors. The analysis of ages of trade debts and loss allowance using the aforementioned approach as at 30 June 2021 was determined as follows:

	Other	
	2021 Rupees	2020 Rupees
Current	159,690,548	30,974,454
Past due 61 - 90 days	23,592,143	6,251,348
Past due 91 - 180 days	8,476,428	7,243,347
Past due 181 - 365 days	2,783,634	2,404,878
More than 365 days	7,947,111	2,329,515
	202,489,864	49,203,542

Handwritten signature/initials.

Export sales are majorly secured through letter of credit while majority of the local sales are made to Government departments / hospitals. Trade debts are essentially due from government departments / projects and the Company is actively pursuing for recovery of debts and the Company does not expect these companies to fail to meet their obligations.

Deposits and other receivables are mostly due from Government Institutions, utility companies and a major supplier. Impairment on these balances has been measured on 12 month expected loss basis and reflects the shortest maturities of the exposure. Based on past experience the management believes that no impairment allowance is necessary in respect of these financial assets. There are reasonable grounds to believe that these amounts will be recovered in short course of time.

### 36.1.2 Concentration of credit risk

Concentration of credit risk exists when the changes in economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Company's total credit exposure. The Company's portfolio of financial assets is broadly diversified and all other transactions are entered into with credit-worthy counterparties there-by mitigating any significant concentrations of credit risk.

### 36.2 Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial assets, or that such obligations will have to be settled in a manner unfavorable to the Company. Management closely monitors the Company's liquidity and cash flow position. This includes maintenance of liquidity ratios, debtors and creditors concentration both in terms of the overall funding mix and avoidance of undue reliance on large individual customers.

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has built an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Included in notes 6 and 20 to these financial statements is a listing of additional undrawn facilities that the Company has at its disposal to further reduce liquidity risk.

#### Exposure to liquidity risk

#### Contractual maturities of financial liabilities, including estimated interest payments

The following are the contractual maturities of financial liabilities as on 30 June.

	2021			
	Carrying amount	Less than one year	One to five years	More than 5 years
	Rupees			
<b><u>Financial liabilities</u></b>				
Trade and other payables	353,517,564	353,517,564	-	-
Long term loan - secured	1,091,103,479	43,978,849	720,047,340	618,128,333

KANAKH

### 36.3

#### Market risk

Market risk is the risk that changes in market price, such as foreign exchange rates, interest rates and equity prices will effect the Company's income or the value of its holdings of financial instruments.

Market risk comprises of three types of risks:

- currency risk.
- interest rate risk
- other price risk

#### 36.3.1

##### Currency risk

Pakistani Rupee is the functional currency of the Company and exposure arises from transactions and balances in currencies other than Pakistani Rupee as foreign exchange rate fluctuations may create unwanted and unpredictable earnings and cash flow volatility. The Company's potential currency exposure comprises of:

- Transactional exposure in respect of non functional currency monetary items.
- Transactional exposure in respect of non functional currency expenditure and revenues.

The potential currency exposures are discussed below:

##### Transactional exposure in respect of non functional currency monetary items

Monetary items, including financial assets and liabilities, denominated in currencies other than the functional currency of the Company are periodically restated to rupee equivalent, and the associated gain or loss is taken to the profit or loss. The foreign currency risk related to monetary items is managed as part of the risk management strategy.

##### Transactional exposure in respect of non functional currency expenditure and revenues

Certain operating and capital expenditure is incurred by the Company in currency other than the functional currency. Certain sales revenue is earned in currencies other than the functional currency of the Company. These currency risks are managed as a part of overall risk management strategy. The Company does not enter into forward exchange contracts.

AMMATH

**Exposure to currency risk**

The summary quantitative data about the Company's exposure to currency risk as reported to the management of the Company is as follows. The figures represent foreign currency balances after conversion in Pak Rupees using exchange rates prevailing at the statement of financial position date.

	2021							2020											
	Rupees	JPY	US Dollars	CNY	Euro	Pound	UAE Dirham	CHF	Aus. Dollars	Rupees	JPY	US Dollars	CNY	Euro	Pound	UAE Dirham	CHF	Aus. Dollars

<b>Net exposure</b>	<u>69,693,578</u>	<u>146,000</u>	<u>345,472</u>	-	<u>56,131</u>	<u>3,410</u>	-	-	<u>1,000</u>										

The following significant exchange rates were applied during the year:

	Reporting date rate		Average rate	
	2021	2020	2021	2020
US Dollars	158.05	168.05	159.53	161.53
Euro	188.42	188.61	190.06	179.29
UAE Dirham	43.34	45.75	43.51	43.98
Pounds	218.93	206.50	215.35	201.97
JPY	1.43	1.56	1.52	1.24
Australian dollars	118.90	115.18	117.04	98.17
CHF	171.86	-	174.40	-
CNY	24.76	-	24.62	-

### 36.3.1.1 Sensitivity analysis

A reasonably possible strengthening / (weakening) of 10% in Pak Rupee against the following currencies would have affected the measurement of financial instruments denominated in foreign currency and affected statement of profit or loss by the amounts shown below at the statement of financial position date. The analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

	Profit or loss	
	2021	2020
	Rupees	Rupees
Statement of profit or loss	1,326,732	11,853,309

A ten percent weakening of the Pakistani Rupee against foreign currencies at the reporting date would have had the equal but opposite effect on the amounts shown above, on the basis that all other variables remain constant.

### 36.3.1.2 Currency risk management

Since the maximum amount exposed to currency risk is only 2.44% (2020: 1.13%) of the Company's total assets, any adverse / favorable movement in functional currency with respect to foreign currencies will not have any material impact on the operational results.

### 36.3.2 Interest rate risk

Interest rate risk is the risk that fair values or future cash flows of a financial instrument will fluctuate because of changes in interest rates. Sensitivity to interest rate risk arises from mismatch of financial assets and financial liabilities that mature or re-price in a given period. At the reporting date the interest rate profile of the Company's significant interest bearing financial instruments was as follows:

	2021	2020	2021	2020
	Effective rate (in Percentage)		Rupees	Rupees
<b><u>Financial assets</u></b>				
Cash at bank - deposit accounts	5.51% to 5.59%	6.53% to 11.38%	329,844,026	574,623
<b><u>Financial liabilities</u></b>				
Long term loan - secured	8.42% to 9.09%	8.44%	1,091,103,479	7,000,000
Net			1,420,947,505	7,574,623

### Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect profit or loss.

### Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have increased / decreased loss for the year by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2021.

Handwritten signature or mark.

	Profit or loss	
	100 bps Increase	100 bps Decrease
<b>As at 30 June 2021</b>		
Cash flow sensitivity - Variable rate financial assets	<u>14,209,475</u>	<u>(14,209,475)</u>
<b>As at 30 June 2020</b>		
Cash flow sensitivity - Variable rate financial liabilities	<u>75,746</u>	<u>(75,746)</u>

The sensitivity analysis prepared is not necessarily indicative of the effects on loss for the year and assets / liabilities of the Company.

### 36.3.2.1 Interest rate risk management

The Company manages these mismatches through risk management strategies where significant changes in gap position can be adjusted.

### 36.3.3 Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk). The Company is exposed to equity price risk because of investments held by the Company in mutual funds and classified in the statement of financial position at fair value through profit or loss. To manage its price risk arising from investments, the Company diversifies its portfolio within the eligible stocks/ funds in accordance with the risk investment guidelines approved by the investment committee.

### 36.4 Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets i.e. listed equity shares are based on the quoted market prices at the close of trading on the period end date. The quoted market prices used for financial assets held by the Company is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

#### 36.4.1 Valuation of financial instruments

IFRS 13 'Fair Value Measurement' requires the company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

Level 1: Quoted market price (unadjusted) in an active market.

Level 2: Valuation techniques based on observable inputs.

Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data.

Valuation techniques used by the Company include discounted cash flow model. Assumptions and inputs used in valuation techniques include risk-free rates, bond and equity prices, foreign currency exchange rates, equity and equity index prices. The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the reporting date that would have been determined by market participants acting at arm's length.

Valuation models for valuing securities for which there is no active market requires significant unobservable inputs and a higher degree of management judgement and estimation in the determination of fair value. Management judgement and estimation are usually required for selection of the appropriate valuation model to be used, determination of expected future cash flows on the financial instrument being valued and selection of appropriate discount rates, etc.

The fair value of financial instruments traded in active markets is based on Net Asset Values (NAVs) of the units of the mutual funds at the reporting date. A market is regarded as active when it is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an on going basis.

*Handwritten signature*

36.4.2 The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

	Carrying Amounts				Fair Value

AMUTHA

### 36.5 Capital management

The Board's policy is to maintain an efficient capital base so as to maintain investor, creditor and market confidence and to sustain the future development of its business. The Board of Directors monitor the return on capital employed, which the Company defines as operating income divided by total capital employed.

The Company's objectives when managing capital are:

- (i) to safeguard the entity's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, and
- (ii) to provide an adequate return to shareholders.

The Company manages the capital structure in the context of economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, issue new shares, or sell assets to reduce debt.

	Unit	2021	2020
Total debt	<i>Rupees</i>	1,091,103,479	7,000,000
Total Equity	<i>Rupees</i>	1,466,637,819	782,373,263
<b>Total capital employed</b>	<i>Rupees</i>	<u>2,557,741,298</u>	<u>789,373,263</u>
<b>Gearing</b>	<i>Percentage</i>	<u>43%</u>	<u>0.89%</u>

Total debt comprises of long term loans from banking company and short term borrowings.

Total equity includes issued, subscribed and paid-up share capital, capital reserves, accumulated profits and surplus on revaluation of fixed assets.

Neither there were any changes in the Company's approach to capital management during the year nor the Company is subject to externally imposed capital requirements.

### 37 Impact of COVID-19 (Corona Virus)

The pandemic of COVID-19 that has rapidly spread all across the world has not only endangered human lives but has also adversely impacted the global economy. During the year, the Government of the Punjab from time to time announced a temporary smart lock downs as a measure to reduce the spread of the COVID-19. However, after implementing all the necessary Standard Operating Procedures (SOPs) to ensure safety of employees, the Company continued to carry out its operations and has taken all necessary steps to ensure smooth and adequate continuation of its business. Management is actively monitoring the impact of the pandemic on its financial condition, liquidity, operations, supply chain, and workforce, which at this point is not considered to be significant. However, during the year the Company obtained term loan / SBP COVID-19 relief facility, under "SBP refinance scheme for payment of wages and salaries" introduced by Government of Pakistan, amounting to Rs. 35 million, for paying salaries for the months from May 2020 to September 2020 as explained in note 6 to these financial statements. Further, management believes that the Company has sufficient liquidity available to continue to meet its financial commitments for the foreseeable future when they become due. From the very outset of Covid-19, the management has adopted various policies and practices to minimize adverse impact of Covid-19 on the business and is continuously monitoring the situation in order to proactively address any challenges which may arise from Covid-19.
